

The Association of Professional Engineers,  
Geologists and Geophysicists of Alberta

February 17, 2009

### **Canstruction® Edmonton**

On behalf of the 54,000 Members of The Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA), I am pleased to encourage you and your colleagues to participate in Canstruction® Edmonton. This unique event is a great opportunity to use your skills and knowledge to help benefit those in need.

Canstruction® Edmonton brings together the geoscience, engineering, construction and other communities in the spirit of friendly competition to produce some impressive results. During the second annual Edmonton design/build competition, teams will build creative structures using canned and packaged food. The sculptures are then judged, put on display for public viewing and eventually “de-canstruced,” with all of the food going to local food banks. If you haven’t yet had the chance to participate in the event, or to view the impressive structures created during it, now is a great time to start.

Last year, Canstruction® Edmonton proved to be a fun-filled event that supported a meaningful cause. I hope you will consider demonstrating your geoscience and engineering pride by organizing a team to participate. If you aren’t able to take part, I encourage you to view the sculptures and support the creativity and talent of your fellow professionals.

Sincerely,

Gordon Williams, P.Geol., Ph.D.  
President
