

The Association of Professional Engineers,  
Geologists and Geophysicists of Alberta

March 17, 2010

### **Canstruction® Edmonton**

On behalf of the over 57,000 Members of The Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA), I would like to encourage you and your colleagues to participate in Canstruction® Edmonton. This unique event shines a spotlight on hunger and is a great opportunity to use your skills and knowledge to help those in need.

Canstruction® Edmonton brings together geoscience, engineering, construction and other communities in the spirit of friendly competition to produce some impressive results. During this third annual Edmonton design/build competition, teams will create structures using canned and packaged food. The sculptures will be judged, put on display for public viewing and eventually “de-canstructured.” All of the food will go to local food banks.

If you haven't yet had the chance to participate in the event, or to view the impressive structures created during it, now is a great time to start. Canstruction® Edmonton not only supports a meaningful cause but also helps to raise the profile of Engineering and Geoscience Professionals in our community. I hope you will consider demonstrating your engineering and geoscience pride by organizing a team to participate in this unique event.

Sincerely,

A handwritten signature in black ink, appearing to read 'W. James Beckett', is written over a light blue circular watermark that contains the text 'APEGGA'.

W. James Beckett, P.Eng.  
President
